

Heat: An Agent of Change

What We Know About Heat

STUDENT ACTIVITY

Name _____

In this unit, you will be learning more about heat. A good way to start learning anything new is first to think about what you already know about the topic. The purpose of this activity is to start thinking about heat.

PROBLEM

What do we, as a class, already know about heat?

PROCEDURE

You will participate in a class discussion. Record your thoughts on the form below.

1. What conditions do you think must be present to increase the heat energy of an object?

2. On _____(date), my definition of heat is:

3. On _____(date), I changed my definition of heat to:

4. On _____(date), I revised my definition of heat to:

5. On _____(date), my final definition of heat is:
